

SUCCESS STORY

Mt. Lebanon Lutheran School

Tell us about your venue:

Mt. Lebanon Lutheran School in Milwaukee, Wisconsin educates more than 250 students.

Why did they need an AED:

Mount Lebanon Lutheran School in connection with Project ADAM created a goal to become a heart safe school. This means that a designated team will be trained as an emergency response team at each school campus so their response to a cardiac emergency will be quick and lifesaving. Mt. Lebanon successfully completed two fundraising campaigns through GotAED.org raising funds to support purchases of multiple AEDs.

How did you get the word out:

Project ADAM, social media, and outreach to parents

How many people donated to your campaign:

17 people

How long did it take you?

30 days
