Project Adam

CC: All Affiliate Sites

August 23, 2020

I wanted to take a moment to introduce myself. My name is Mike and I own a CPR and AED training center located in Hanover, PA while working fulltime for one of the largest fire departments in the US. While we service the Pennsylvania, Maryland, and DC areas with CPR training, we're a high-volume retailer for all six major AED brands and ship nationally.

I was first introduced to Project Adam last year by West Virginia's Medical Director, Dr. John Phillips. Since learning more about the mission and presenting at a conference they held, I have become very passionate about placing AEDs into schools to help save more lives.

We're here to assist with anything your school or affiliate chapter may need with AEDs. Whether it's providing information on the differences between different AED brands or presenting in person or virtually at one of your meetings, we have you covered.

Through my passion to place more AEDs in schools, I can guarantee to offer AEDs, replacement pads, batteries and accessories at the lowest price in the industry. Since our prices are lower than what most manufacturers allow their AEDs to be sold, we're not allowed to advertise the prices online. For more information please reach out to us via phone (410-881-7800) or email me directly, mike@CPRBaltimore.com.

I look forward to working with you to save even more lives with Project Adam's.

Sincerely,

Michael J. Goldberg
