FTE dedicated to Project ADAM: Officially - 0.0. Unofficially, 0.1 Work from Home on Project ADAM

USA Women & Children's Hospital – Affiliate established in 2022.

Mobile, AL.

Local Program Activities: Partner with local nonprofit who provides heart screenings to local high schools to provide secondary SCA awareness and walk schools through HSS process.

Greatest key to success? Partnerships with school nurses and athletic trainers.

Program Coordinator Information

Job Title: Pharmacist

Job Classification: Other

Professional Background: Nonprofit, Mom of SCA survivor, Exec Dir of Heart for Athletes, employee of local Children's hospital

of FTE dedicated to Project ADAM: 0

Children's Hospital of Richmond at VCU – Affiliate established in 2022.

Richmond, VA.

Local Program Activities: Our team provides on-site (local) and virtual support to help schools establish and maintain Heart Safe School programs. This includes in-person educational visits, virtual program reviews, and guidance on implementing effective cardiac emergency response plans. We also assist schools with conducting cardiac emergency drills and participate in statewide conferences to raise awareness and share best practices in sudden cardiac arrest prevention and response in schools.

Greatest key to success? One of the greatest keys to our success has been the strong support from our medical director and the Children's Hospital of Richmond. Their guidance and backing give our program credibility and help us bring high-quality, evidence-based resources to schools. Just as important is the relationship we've built with school nurses—they've been incredible champions of the Heart Safe mission. Their commitment and collaboration have helped us create a lasting impact in schools across the state. We are approaching 100 schools and hope to achieve this goal by January 2026.

Program Coordinator Information

Job Title: Project ADAM Program Coordinator

Job Classification: Non-clinical role .5FTE

Professional Background: BS from Old Dominion University, Exercise Science Degree, Certified Clinical Exercise Physiologist

Children's Nebraska – Affiliate established in 2022.

Omaha, NE.

Local Program Activities: Continuing to build relationships with school districts in the state, with a greater focus on the remaining large districts in our metro area that aren't currently heart safe. Management of a grant-funded project in a rural county in our state centered around AED procurement and designation for all the school districts in that county.

Greatest key to success? Leveraging our Community Health & Advocacy school health team to build on established relationships with school nurses in our state. This has allowed us to get our foot in the door in multiple districts we might have struggled with if we didn't already have that established relationship. We've also worked with other local partners (local public health departments, educational service units, etc.) to build trust with schools.

Program Coordinator Information

Job Title: Project ADAM Coordinator

Job Classification: Non-Clinical Role

Professional Background: non-profit training & development, CPR program management

of FTE: 1.0

Project ADAM: Lawson's Legacy at Le Bonheur Children's Hospital, Memphis, TN was established in 2022.

Local Program Activities: Through philanthropic efforts, we bring community awareness of and response to sudden cardiac arrest in children, adolescents, and adults. We partner with local schools, providing free education, planning, and training to help with implementing lifesaving cardiac emergency action plans.

Greatest key to success? Finding someone who has the passion and energy to spearhead the efforts for their school.

Program Coordinator Information

Job Title: Jenny Strelsin, MSN, PNP-AC, Nurse Practitioner, Pediatric and Congenital

Electrophysiology Nurse Practitioner Pediatric and Congenital Electrophysiology

Job Classification: Nurse practitioner and Affiliate Program Coordinator

Professional Background: Nursing

or percentage of FTE dedicated to Project ADAM: 0

Kentucky Children's Hospital – Affiliate established in 2023.

Lexington, KY.

Local Program Activities: As a new affiliate, we are focusing on school in our county right now. We are close to having all the county high school Heart Safe!

Greatest key to success? Our support from our team at KCH and the support from the entire team. It has been much easier than we thought, and we are excited at our progress.

Program Coordinator Information

Job Title: Program Coordinator, Joint Pediatric and Congenital Heart Program

Job Classification: Administrator/Project Coordinator

Professional Background: I have been in my position with the Heart Program for 8 years. Other

of FTE dedicated to Project ADAM: 0

Norton Children's Heart Institute – Affiliate established in 2023.

Louisville, KY.

Local Program Activities: AED drill assistance, Heart Safe School consultation and assistance, Professional presentations within school/hospital settings

Greatest key to success? Persistence - It took a lot of work and continued advocacy to get a program coordinator role approved. Flexibility and Collaboration - Working together within our own program and with surrounding programs to create an affective outreach into the community, while being able to adapt quickly and efficiently when change occurs.

Program Coordinator Information:

Job Title: Nurse Clinician; Project ADAM Program Coordinator

Job Classification: RN; Clinical role

Professional Background: RN - Adult med-surg/ortho, pediatric cardiology

of FTE dedicated to Project ADAM: 1.0 (Shared with clinical days/tasks for Dr. Skaff).

Nemours Children's Hospital Delaware – Affiliate established in 2023.

Wilmington, DE.

Local Program Activities: We have designated one school since becoming an affiliate.

Greatest key to success? Too new to have that answer!

Program Coordinator Information

Job Title: Nurse Practitioner

Job Classification: Clinical role

Professional Background: Pediatric nurse for 34 years, NP in heart transplant/heart failure for past 17 years.

of FTE dedicated to Project ADAM: 0.1, or 4 hours per week.

*** An RN at one of our primary care sites is assisting with expanding outreach, helping to coordinate meetings with schools, etc. (Sean, Medical Director and Karen, Program Coordinator, are still "volunteers" for our program).*

WVU Medicine Golisano Children's Hospital – Affiliate established in 2023.

Morgantown, WV.

Local Program Activities: We provide education and support to schools and organizations regarding SCA awareness and prevention, and guidance in becoming Heart Safe designated throughout WV

Greatest key to success? Coordinators with a passion for the project and patience.

Program Co-Coordinator Information

Job Title: Nurse Practitioner / Division Manager

Job Classification: Clinical provider / Manager

Professional Background: Nursing and Advanced Practice Nursing

of FTE dedicated to Project ADAM: 0

Phoenix Children's Hospital– Affiliate established in 2023. *One Hospital Affiliate, split into two regions*
Project ADAM of Southern Arizona

Local Program Activities: We provide education, support and CPR/AED training to schools and organizations regarding SCA awareness and prevention, and guidance in becoming Heart Safe designated in Southern Arizona.

Greatest key to success: Providing onsite support and education

Program Coordinator Information

Job Title: Program Coordinator

Job Classification: RN

Professional Background: Pediatric Cardiology

or percentage of FTE dedicated to Project ADAM: 0

Project ADAM of Northern Arizona

Local Program Activities: Provide educational resources to support schools and organizations regarding SCA awareness and prevention, and guidance in becoming Heart Safe designated in the Phoenix metro area and Northern Arizona. Support the Arizona Smart Heart Sports Coalition to advance legislation requiring AEDs and CERPS in Arizona schools.

Greatest key to success? A motivated/excited champion as the schools site coordinator.

Program Coordinator Information

Job Title: Program Coordinator

Job Classification: Pediatric Nurse Practitioner

Professional Background: Pediatric Cardiology and ICU

or percentage of FTE dedicated to Project ADAM: 0.05 FTE

Norton Children's Heart Institute/University of Louisville School of Medicine - Affiliate established in 2023. Louisville, KY

Local Program Activities: We provide education and resources to schools and community groups regarding SCA awareness and prevention and other heart health topics. We offer guidance in becoming Heart Safe designated by way of Project ADAM and legislative guidelines.

Greatest key to success? We are a team of cardiac providers and nurses with a passion for the Project ADAM mission. Our facility was able to allot a full-time position for the program coordinator, creating an opportunity to share workload and maximize outreach.

Program Coordinator Information

Job Title: Nurse Clinician

Job Classification: Clinic Nurse/Program Coordinator

Professional Background: Registered Nurse

or percentage of FTE dedicated to Project ADAM: 0.50

**Children's Hospital of Pittsburgh – Affiliate established in 2024.
Pittsburgh, PA.**

Local Program Activities: We are working on getting our program off the ground! Hoping to designate our first school during the 2024-2025 school year! Our plans include focusing on charity walks and community-based events this summer and to host an event hospital wide for CPR and AED training.

Greatest key to success? Forging ahead. Without continuing to push forward we would not be an affiliate, as we had to jump through lots of hoops to get here. Now we are on the hunt for funding for equipment, marketing materials, and an FTE dedicated to Project ADAM.

Program Coordinator Information

Job Title: Electrophysiology Nurse Coordinator

Job Classification: RN-Indirect

Professional Background: Pediatric Electrophysiology

of FTE dedicated to Project ADAM: 0

Johns Hopkins All Children's Hospital – Affiliate established in 2024.

St. Petersburg, FL.

Local Program Activities: We are a new program just starting to make connections with local schools. We have created a partnership with the Catholic school system and met with their superintendents.

Greatest key to success? I think networking will be key to getting started.

Program Coordinator Information

Job Title: Clinical Exercise Physiologist

Job Classification: Outpatient clinical role

Professional Background: Pediatric exercise stress testing

of FTE dedicated to Project ADAM: 0

UCSF Benioff Children's Hospital San Francisco – Affiliate established in 2024.

San Francisco, CA.

Local Program Activities: We are still working on getting our program off the ground. We have been in contact with local schools for how to support them through heart designation, and local organizations such as the AHA to collaborate with mutual goals.

Greatest key to success? Communication and commitment. We are still working on getting funding to help with equipment and supplies.

Program Coordinator Information

Job Title: Clinical Nurse 3 in the Pediatric ICU

Job Classification: Clinical role

Professional Background: Pediatric intensive care and pediatric cardiology backgrounds. Also pursuing a PhD and gaining research related skills

of FTE dedicated to Project ADAM: Officially 0. We have about 4-5 people working on Project ADAM. We are all full time (0.9-1.0 FTE).

University of Utah/ Primary Children's Hospital – Affiliate established in 2024.

Salt Lake City, UT.

Local Program Activities: We are in the early stages of launching our program and are working on getting it off the ground. We haven't officially designated any schools yet, but we plan to start outreach and foundational work in the coming months.

Greatest key to success? Establishing early communication with stakeholders and learning from other affiliate sites has helped us better understand how to grow our program intentionally. Being part of the network has provided clarity and direction as we begin.

Program Coordinator Information

Job Title: Administrative Assistant

Job Classification: Non-clinical

Professional Background: Administrative support in Pediatric Cardiology

of FTE dedicated to Project ADAM: Approximately 0.01–0.02 FT, with plans to increase as the program develops.
