

Project ADAM®

SAVES LIVES

Project ADAM National Meeting *TBD, 2019* *TBD, Hospital Affiliate Meeting Site*

Project ADAM is a national non-profit organization comprised of 15 hospital affiliate sites across the nation working to save lives through cardiac emergency preparedness. The program was created in memory of Adam Lemel, a 17 year old student athlete who passed away from Sudden Cardiac Arrest. Each year we host a national meeting where program coordinators and medical directors converge to discuss best practices and ideas through our work in advocacy, education, preparedness and collaboration as we work to make our schools and communities Heart Safe.

Our work could not be accomplished without the help of our partners and our national meeting is an excellent opportunity to network and collaborate.
