

Project ADAM National Meeting

Date: Monday June 3rd - Wednesday June 5th, 2019

Meeting Host: C.S. Mott Children's Hospital, Michigan Medicine,
University of Michigan Congenital Heart Center, Ann Arbor, MI

Project ADAM is a national program comprised of 19 program affiliate sites in 15 states working collaboratively to save lives by empowering schools and communities to be prepared for a sudden cardiac arrest.

The program was created in memory of Adam Lemel, a 17 year old student athlete who passed away from Sudden Cardiac Arrest. Each year we host a national meeting where program coordinators and medical directors converge to discuss best practices and ideas through our work in advocacy, education, preparedness and collaboration as we work to make our schools and communities Heart Safe.

Our work could not be accomplished without the help of our partners and our national meeting is an excellent opportunity to network and collaborate.

Platinum Level Sponsor - \$1500
